

European Network of Imported Viral Diseases

**This is to nominate**

Anders Fomsgaard, MD, DMSc, Chief of Molecular Virology Laboratory  
Department of Virology, Statens Serum Institut, Denmark, as national participant of the European Network of Imported Viral Diseases, ENIVD project with regard to the following infectious agents:

*SARS, Dengue, Orthopox, Lassa, Ebola, Marburg, Flavivirus (Tick Borne Encephalitis (TBE), Yellow fever (YF), West Nile (WN)*

This participation will include proper support to the Community Network for the epidemiological surveillance and control of communicable diseases in compliance with the requirements as defined in Decision no. 2119/98/EC.

The information flow will be guaranteed via the structures and/or public health authorities designated according to Article 9 of that Decision.

Regards,

Sigrid Poulsen  
Senior Medical Officer  
Communicable Diseases
